

Connecticut General Assembly
Energy and Technology Committee
Feb. 28, 2008

Testimony of Andy Bauer in Support of HB 5596 An Act Concerning the Right to Dry.

Andy Bauer
256 Old Marlborough Tnpk
Portland, CT 06480

Clearly, with the status of our energy system, we need to promote every opportunity to conserve.

I am saving energy and dozens of dollars each month with my clothesline, yet my 81 year old mom (on a fixed income), can not.

This is because she lives in a condominium governed by a close minded association that will not allow the use of clotheslines.

In terms of saving energy, this bill is the definition of 'low hanging fruit' and I strongly urge its passage.

Sincerely,

Andy Bauer
